

ASTON MARTIN

Design Engineer HV (M/W/DIV)

Aston Martin is built upon the passion, skill and creativity of the people who dedicate their working lives to the most iconic brand in the world. Every intricate stitch, beautifully expressed line, and the stirring noise of our engines is a manifestation of the desire and collective spirit to create the most beautiful cars: the soul of Aston Martin made real.

Job Purpose: To be responsible for 3D design and 2D drawings of HV battery pack for hybrid and electric vehicles across AML programmes including package integration in close coordination with interfacing system owners, package teams and vehicle integration.

Key Responsibilities & Tasks:

- 3D concept design and 2D drawing generation of HV battery pack
- Definition of HV battery pack and HV systems BOM, driven by CAD structure
- Responsibility for package integration of a HV battery pack
- Train, coach and present technical information
- Work closely with development team to ensure functional performance and durability achieves targets

Qualification & Experience:

- Bachelor Degree in Mechanical Engineering or equivalent qualification
- Design and development of HV battery pack or hybrid and/or electrical vehicles
- Generation of 2D and 3D NX CAD in line with corporate standards and Siemens PLM TeamCentre
- Detailed knowledge in technical and legal requirements for HV batteries and HV components
- Ability to analyse and validate supplier data to identify issues
- Strong creative thinking and problem solving attitude
- Cost awareness
- Strong teamworking skills
- Ability to work independently, proactive and on own initiative with minimum supervision
- Fluent German, both written and spoken, and very good knowledge of English

Package

- Become part of the team that will build Aston Martin Germany
- An attractive salary
- Location Stuttgart area
- Company pension scheme
- Company performance bonus scheme
- ...and much more
