

ASTON MARTIN

## Project Engineer Switchgear (M/W/DIV)

Aston Martin is built upon the passion, skill and creativity of the people who dedicate their working lives to the most iconic brand in the world. Every intricate stitch, beautifully expressed line, and the stirring noise of our engines is a manifestation of the desire and collective spirit to create the most beautiful cars: the soul of Aston Martin made real.

**Job Purpose:** As the Project Engineer Switchgear you are responsible for the development of new and modified switch systems.

### Key Responsibilities & Tasks:

- Lead the delivery of new and modified Switchgear projects
- Create system proposals, system specifications, strategy and status reports
- Develop and control the supporting design documentation (Concern Resolution, Design Failure Modes, Design Verification Plans, Effects Analysis, Engineering Release and Sign-off Reports)
- Prepare and present strategy and status reports to the senior management
- Support in defining the future commodity strategy (purchasing department) as well as vehicle construction and launch activities (investigate, contain and solve problems)
- Develop and implement commodity timing plans to achieve the 'Mission' milestone actions

### Qualification & Experience:

- Bachelor's or Master's Degree in Engineering or a comparable degree
- Significant experience in a commodity delivery or project management role, within automotive sector
- Well experienced in working with Electronic Control & Switch products
- Knowledge of industry standard tool sets (FMEA, Design Verification Plan, Six Sigma, Production Part Approval Process etc.) and Switch and Control Electronics systems
- Strong technical thinking, planning skills and problem-solving attitude
- Excellent written and verbal communication skills (English and German)

### Package

- Become part of Aston Martin UK/ Germany
- An attractive salary
- Location: Gaydon area/ Stuttgart area
- Company pension scheme
- Company performance bonus scheme
- ...and much more
