

ASTON MARTIN

Design Coordinator Package Powertrain (M/W/DIV)

Aston Martin is built upon the passion, skill and creativity of the people who dedicate their working lives to the most iconic brand in the world. Every intricate stitch, beautifully expressed line, and the stirring noise of our engines is a manifestation of the desire and collective spirit to create the most beautiful cars: the soul of Aston Martin made real.

Job Purpose: Coordination of all engine design relevant DMU checks internal and external.

Key Responsibilities & Tasks:

- Engine DMU checks and design activities
- Presentation and escalation of package and design relevant topics to the management
- Steering of external service providers and suppliers worldwide
- Coordination and handling of responsibilities between the departments in Germany and Gaydon
- Interface function and first contact person for the design, simulation, testing, application and vehicle departments in all package relevant topics
- Responsibility for the execution of package investigations (DMU)
- Ensuring and monitoring cost and time schedules

Qualification & Experience:

- Bachelor's or Master's degree in Mechanical Engineering or Automotive Engineering
- Depth knowledge of transmission and powertrain design
- Physical understanding of Powertrain
- Excellent PowerPoint and presentation skills
- Several years of experience in the automotive sector, ideally with one or more OEMs
- Excellent networker with flair and very good communication skills
- In-depth know-how of common CAD systems
- Intercultural competence and structured way of working
- Team player with excellent German and English skills

Package

- Become part of the team that will build Aston Martin Germany
- An attractive salary
- Location Stuttgart area
- Company pension scheme
- Company performance bonus scheme
- A highly motivated and skilled team
- ... and much more
