

ASTON MARTIN

Functional Safety and Cyber Security Manager (M/W/DIV)

Aston Martin is built upon the passion, skill and creativity of the people who dedicate their working lives to the most iconic brand in the world. Every intricate stitch, beautifully expressed line, and the stirring noise of our engines is a manifestation of the desire and collective spirit to create the most beautiful cars: the soul of Aston Martin made real.

Job Purpose: To lead, update and implement Aston Martin's strategy on achieving functional safety and cyber security compliance across all vehicle programs through the effective management of the Functional Safety and Cyber Security team.

Key Responsibilities & Tasks:

- Lead Aston Martin's strategy on achieving functional safety and cyber security compliance across all vehicle programs through the effective management of the Functional Safety and Cyber Security team.
- Support AML's strategic planning with regards to Functional Safety and Cyber Security, estimating the timing and resource needs.
- Develop short term and long-term strategies considering the type of programs, the features, competition and future trends.
- Ensure that AML's safety culture, policies and processes are supporting the achievement of Functional Safety and Cyber Security.
- Act as a central source of knowledge on functional safety and cyber security topics and collaborate with the wider business and its engineering partners to support meeting the Functional Safety and Cyber Security requirements.
- Ensure future products are assessed for risks, develop mitigation plans, and support the implementation of these plans.

Qualification & Experience:

- Bachelor's or Master's degree in Engineering or a or a similar discipline
- Experience as functional safety engineer/manager and preferred cyber security exposure
- Experience in safety related systems
- Excellent knowledge of ISO 26262
- Experience in controllability of vehicles, in particular vehicle dynamics
- Good knowledge of the product development cycle from concept to product launch
- Creates open communication within own team as well as cross-functional teams to achieve goals
- Works with internal and external customers in mind, understanding their needs and anticipating their requirements
- Ensures communication has a clear purpose, is factual, accurate, and provided at the right time
- Takes ownership of objectives, work activities and behavior and makes informed decisions backed by data
- Actively challenges self and others in order to stimulate creative thinking and continuous improvement

Package

- Become part of the team that will build Aston Martin Germany
- An attractive salary
- Access to car scheme
- Location Stuttgart area
- Company pension scheme
- Company performance bonus scheme
- A highly motivated and qualified team
- ... and much more
